

A new **brakethrough**  
in rig performance.

# Ideas.

**Introducing AquaMakKs®, the industry's most advanced water-cooled brake.**

With its patented water-packet design for superior heat dissipation and a new brake design for easy installation and maintenance, the revolutionary AquaMakKs is the ultimate brake for heavy-duty mining applications.

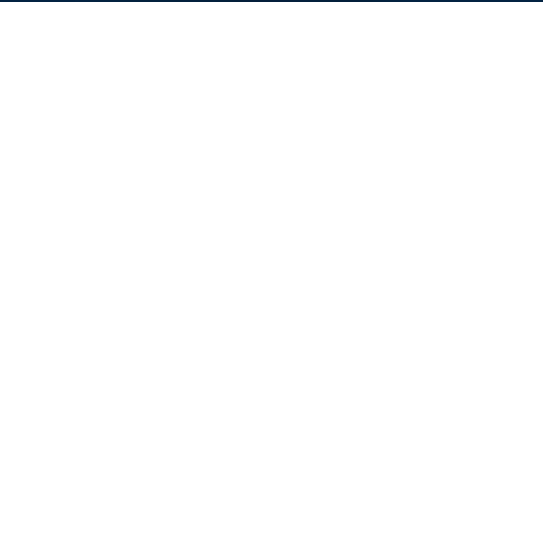

The unique water-packet design allows for better slip-resistance. That allows for much greater torque and greater absorption of heat in a smaller package.

## Foster Marketing delivers cost-effective,

creative marketing communications to the worldwide energy industries, from upstream to downstream, from wind to solar and beyond. More than any other communications firm, we understand the energy business. We have been an integral marketing provider to the oil and gas industry for more than 33 years and as renewable energy has emerged, we've followed suit.

---

---

**OUR RESULTS** are the reason Foster Marketing is the global leader in oil and gas and energy marketing and communications. We understand the unique needs of the industry and have the talent, energy and ideas to take your company to the next level.

**Heave Compensation Solutions: InterMoor Completes Two Projects**

**InterMoor Completes IRIS Installation and Recovery in the Gulf of Mexico**

The project took place for Apache Deepwater LLC (Apache) in Mississippi Canyon Block 148, Well 5 in the Gulf of Mexico. The work scope included the overboard, wet transfer, deployment and recovery of a 30-ton interchangeable wireless Intervention System (IRIS) owned by Blue Ocean Technologies. InterMoor undertook the work in water approximately 168 meters deep from Cal Dive's Uncle John semisubmersible vessel. [Read Full Story](#)
